

SprintPulse — Facilitator User Guide

Overview

As a facilitator, you create teams, manage polls, control live sessions, and view results. This guide covers everything you need to run engaging workshops, retrospectives, and PI events using SprintPulse.

Getting Started

Creating Your Account

1. Navigate to your app URL and click **Facilitator** (e.g., <https://sprintpulse-app.vercel.app>)
2. Click the **Register** tab
3. Enter your **display name**, **email**, and **password** (minimum 8 characters)
4. Click **Create Account**
5. You're now logged in and can start creating teams and polls

Signing In

1. Navigate to the app and click **Facilitator**
2. Enter your **email** and **password**
3. Click **Sign In**

Resetting Your Password

1. On the login screen, click **Forgot password?**
2. Enter your email address
3. Click **Send Reset Link**
4. Check your email for a password reset link
5. Follow the link to set a new password

Your session persists across browser tabs and page refreshes. Click **Logout** in the top-right to sign out.

Managing Teams

Teams let you organize polls for different groups. Each team has a unique PIN that participants use to access their team's polls.

Creating a Team

1. Click **Teams** in the navigation bar
2. Enter a team name (e.g., "Sprint Team Alpha") in the input field
3. Click **Create Team**
4. A unique PIN is auto-generated (e.g., "A3K7")

Sharing the Team PIN

- The PIN is displayed prominently next to each team name
- Click the **copy** button to copy the PIN to your clipboard
- Share the PIN with participants verbally, via chat, or on screen

Renaming a Team

1. On the Teams page, click the team name to edit it
2. Type the new name and confirm

Deleting a Team

1. Click **Delete** next to the team
 2. Confirm the action
 3. Polls previously assigned to this team become visible to all participants
-

Managing Polls

Creating a New Poll

1. From the admin dashboard, click **Create New Poll**
2. Fill in:
 - **Team** (required) — select which team this poll belongs to
 - **Title** (required, max 200 characters) — displayed to participants
 - **Description** (optional, max 1000 characters) — context for participants
 - **Background Image** (optional) — JPEG, PNG, or WebP, max 5 MB
3. Click **Create Poll**

Editing a Poll

1. Find the poll in the dashboard list
2. Click **Edit**
3. Update the title, description, team assignment, or background image
4. Add or edit questions in the **Questions** section
5. Position questions on the **Visual Canvas Editor**
6. Click **Save Changes** at the bottom of the page (below all sections)

Filtering Polls by Team

- Use the **team filter dropdown** at the top of the poll list to show only polls for a specific team

Cloning a Poll

1. Click **Clone** next to the poll
2. A new poll is created with “(Copy)” appended to the title
3. All questions are duplicated; responses are not copied

Resetting Responses

To clear all participant responses (e.g., for a fresh session):

1. Click **Reset** next to the poll
2. Confirm the action
3. All responses are permanently removed
4. Participants can now re-submit (they'll need to refresh their page)

Deleting a Poll

1. Click **Delete** next to the poll
 2. Confirm the action
-

Managing Questions

Adding Questions

1. Navigate to the poll's **Edit** page
2. Scroll down to the **Questions** section
3. Click **+ Add Question**
4. Fill in:
 - **Question Text** (required, max 500 characters)
 - **Options** (2–10 predefined choices)
 - **Allow custom free-text answer** (checkbox)
5. Click **Add Question**

Editing and Deleting Questions

- Click **Edit** next to a question to modify it
- Click **Delete** to remove it (with confirmation)

Question Limits

- Maximum 20 questions per poll
 - 2–10 options per question
 - Question text: max 500 characters
-

Visual Canvas Editor

Position questions visually on a background image. The canvas editor appears on the Edit page once you have at least one question.

Placing Questions

1. Scroll to the **Visual Canvas Editor** section
2. Drag questions from the **sidebar** onto the canvas
3. Positions are saved automatically

Repositioning and Resizing

- Drag a placed question to move it
- Use corner handles to resize
- Right-click → “Remove from canvas” to unplace

Canvas Background

- Upload via the poll form (JPEG, PNG, or WebP, max 5 MB)
 - Questions are positioned as percentages, so they scale across screen sizes
-

Running a Live Session

Opening the Facilitator Dashboard

1. Click **Facilitate** next to the poll
2. The live control dashboard opens

Session Controls

Control	Default	Description
Voting	Closed	Opens/closes participant submissions
Live Results	Off	Auto-refreshes results every 3 seconds
Anonymisation	On	Hides participant names in results

Reveal Stages

Stage	What’s Shown
HIDDEN	No results visible
COUNTS	Aggregated totals and percentages per option
DETAILS	Full results including free-text responses and participant names for all response types

When **DETAILS** is selected and **Anonymisation** is off, participant names are shown for both custom free-text responses and predefined option selections (e.g., you can see who voted for each option).

Typical Session Flow

1. Create team → create poll → add questions → position on canvas
2. Share the **team PIN** with participants
3. Open the facilitator dashboard → **Open voting**
4. Monitor submissions via live statistics
5. **Close voting** when ready
6. **Reveal results** progressively: **HIDDEN** → **COUNTS** → **DETAILS**

Testing Your Poll

Before going live, you can submit test responses to verify everything works:

1. Open the poll in a separate browser/incognito window as a participant
 2. Submit test responses (these are flagged as test data)
 3. In the facilitator dashboard, switch to the **Test Responses** tab to see only your test submissions
 4. The **Results** tab always shows only real participant responses
 5. Click **Clear Test Responses** to remove test data before the live session
-

Profile Management

1. Click **Profile** in the navigation bar
 2. View your email (read-only) and edit your display name
 3. Click **Save Changes**
-

Tips

- Create separate teams for different groups (e.g., “Dev Team”, “Design Team”)
 - Share the team PIN at the start of each session
 - Test your poll before going live using a different browser/incognito window
 - Use the **HIDDEN** → **COUNTS** → **DETAILS** progression to build suspense
 - Enable anonymisation for sensitive topics
-

Troubleshooting

Issue	Solution
Can't sign in Forgot password	Check email/password; use “Forgot password?” to reset Click “Forgot password?” on the login screen to receive a reset link
Participants can't see polls	Ensure they entered the correct team PIN
Results not updating	Enable “Live Results” toggle
Participants can't submit	Check that voting is open
Reset didn't work	Participants need to refresh their page after a reset
Test Responses tab shows wrong data	Ensure you're using the Test Responses tab (not Results) to view test submissions
